Digital Literacy Awareness Quiz.

Form description

Which of the following is the strongest password practice to prevent unauthorized access to your student accounts? *

- Using the same password for all academic and personal accounts.
- Using your birthdate combined with your last name.
- A unique passphrase with a mix of letters, numbers, and symbols.
- Changing your password every day to something slightly different.

You receive an urgent email from a "System Administrator" asking for your login credentials to prevent immediate account deletion. This is likely an example of: *

- A standard security update.
- Phishing
- Multi-factor authentication.
- A system maintenance notification.

In 1–2 sentences, define the term "Digital Footprint" and explain why it matters for your future career. *

Short answer text

When using an image found on a search engine for a project you plan to share publicly, what is the most ethically sound approach? *

- Assume it is free to use if it doesn't have a watermark.
- Check the license (e.g., Creative Commons) and provide proper attribution.
- Take a screenshot to bypass any copyright protections.
- Only use images that appear on the first page of search results.

Which tool or method is most effective for verifying if a sensational news headline found on social media is actually true? *

- Checking how many "likes" or "shares" the post has received.
